

I'M THANKFUL

© R.Madison/K. Tobias

When it's late at night and I can't sleep
I climb into my car and I hit the street
I turn the radio up
Roll the windows down

Don't think of anything in particular
A little leisure time 'cause I've done my work
I thank the powers that be
For everything He's given me

CHORUS

That's why I'm thankful for your kiss at night
I'm thankful when you hold me tight
I'm thankful to be loved by you

At the foot of my hill there's a coffee shop
Me and my friend Jill, that's where we go to talk
She knows a ton about me
Well, maybe not everything

She doesn't know that I know about Jim
She's wasting her time chasing after him
He's stepping out on her
Yeah, he's such a jerk

CHORUS

That's why I'm thankful for your kiss at night
I'm thankful when you hold me tight
I'm thankful to be loved by.....

BRIDGE

You life me up when I am down
You are my inspiration
Nothing's gonna stop me now

CHORUS

I'm thankful for your kiss at night
I'm thankful when you hold me tight
I'm thankful
Yes, now I'm thankful for your kiss at night
I'm thankful when you hold me tight
I'm thankful to be loved by you
